Profile

Results-driven Frontend Developer with a strong foundation in building scalable, high-performance web applications using React.js, Next.js, TypeScript, and Tailwind CSS. Adept at developing intuitive and responsive user interfaces, optimizing application performance, and implementing seamless API integrations. Experienced in state management, component-driven architecture, and modern frontend development practices.

Proficient in backend technologies such as Node.js, Express.js, Firebase, and MongoDB, enabling effective collaboration across full-stack development workflows. Passionate about crafting seamless digital experiences, writing clean and maintainable code, and enhancing UI/UX through animations, performance optimizations, and accessibility improvements. Thrives in cross-functional teams, ensuring smooth communication between frontend and backend development to deliver impactful solutions.

Skills

Languages

HTML, CSS, JavaScript, TypeScript

Frameworks & Libraries

React.js, Next.js, Svelte, Redux Toolkit, Framer Motion

Testing

Jest, Vitest

API Tools

REST APIs, RapidAPI

Styling

Tailwind CSS, MUI (Material-UI)

Backend & Databases

Node.js, Express.js, Firebase, MongoDB, Mysql

Version Control

Git, Github

Professional Experience

May 2024 - Feb 2025

Frontend Developer

SophNex Solutions

- Spearheaded the design and implementation of **new UI components**, enhancing user interaction and visual consistency across the platform.
- Implemented **dynamic filtering and real-time search** to optimize inventory management efficiency.
- Collaborated with backend developers to ensure **seamless API integration and data flow**.
- Enhanced overall **user experience and performance**, improving load times and interactivity.

May 2023 - Jun 2024

Frontend Developer

Cartly

- Led frontend development for a new web application, increasing user engagement by 30%.
- Developed responsive and visually appealing UI components in React.js and Tailwind CSS.
- Conducted **code reviews** to ensure code quality, maintainability, and best practices.
- Optimized application performance, reducing **load time by 25**% through efficient state management and lazy loading.

Projects

Ecommerce Furniture Site [2]

- Role: Frontend Developer
- Technologies: Next.js, TypeScript, Tailwind CSS, Framer Motion, Redux, jest
- Key Features
 - Developed a **dynamic product catalog** with filtering for seamless browsing.
 - Implemented secure authentication with user roles and access control.
 - Built a **shopping cart system** with real-time price calculations.
 - Created interactive UI animations using Framer Motion.
 - Utilize Redux for efficient state management and data flow across the application.
 - Developed a dedicated admin page for site management, including product display control, inventory management, and order tracking.
 - Styled the user interface with Tailwind CSS for a clean and modern look across all screen sizes.
 - Ensured scalability and type safety with TypeScript.
 - Testing: Implemented unit and integration testing using Jest to ensure reliability.

Fifa Stream 🛮

- Role: Frontend Developer
- Description: A blockchain site for football enthusiast
- Technologies: Html, Css, React, Tailwindcss, Framer motion
- Key Features:
 - Developed a **seamless and responsive** UI for a blockchain-powered football platform.
 - Integrated interactive animations using Framer Motion for enhanced UX.
 - Collaborated with blockchain developers for **smooth integration of smart contracts**.

Real Estate 2

- Role: Full stack developer
- Description: A full stack estate management platform
- Technologies: Html, Css, React.js, Tailwindcss, Node.js, Express.js, MongoDB, Firebase
- Key Points:
 - Built a modern and responsive frontend for property listings.
 - Designed and implemented **property listing pages** with filtering options for better searchability.
 - Built and integrated REST APIs using Node.js and Express.js to handle property listings, user authentication, and inquiries.
 - Implemented Firebase for image uploads and authentication, allowing users to manage listings securely.
 - Ensured efficient state management and real-time updates for a smooth browsing experience.

Education

Jan 2020 – Oct 2024 Student Of Science In Plant Science And Biotechnology
Nigeria University Of Port Harcourt

Organizations

Sep 2023 – Oct 2024 **Microsoft ADC Student League** *Member*
